

Mechanical Wiring Diagram

JB4

Volume/Volume/Tone

Notes:

1. Potentiometer Values - Volume = 250 K Audio Taper, Tone = 250 K Linear Taper.
2. Tone Capacitor - For Aero Pickups = 0.020 uF or 0.022 uF.
3. Central Ground Point (CGP) = Back of Bridge Volume Potentiometer.
4. Ground tab of Bridge potentiometer is grounded to pot body, but no other tabs ground to pot body.
5. Shielded Cable can substitute for the twisted pairs or the wiring to the output jack.
6. Aero single coil wiring is W(+)/Bk(-).
